The action of the directors of the Underground lines in increasing their fares has in several cases been attended with very satisfactory results, the Metropolitan or instance reporting an increase in traffics for the past week of £1,000. EGYPTIAN PENSIONS.

THE NEW SCHEME

The question of the new Pension Law is still under study, and, no definite decision has been arrived at as the actuarial investigation is still proceeding. The compilation of the numerous data necessary for a satisfactory conclusion is a highly complex matter, and it may be some time yet before the Government isin a position to deal in a liberal spirit with the provisions of a new Pension Law. Lord Cromer's remarks on this subject in his last Report deserve reproduction. His Lordship said:

They have been repeatedly modified owing to financial and other considerations; but on each financial and other considerations, but on each cocasion that a change has been made, the rights secured to existing officials under previous arrangements have been left intack, with the result that at the present moment different undividuals in the Government service enjoy widely differing privileges in respect to pension.
